PETITION TRANSMITTAL

Sir:

Transmitted herewith is a Petition Per 37 CFR §1.47 Filing When an Inventor Refuses to Sign or Cannot Be Reached, along with Exhibits 1-6; a copy of the partially executed Declaration and Power of Attorney; and a copy of the Notice to File Missing Parts for this application. Applicant is a large entity.

Please charge Deposit Account 18-1750 the amount of **\$130.00** for the late declaration surcharge. If any additional fee is required, the Commissioner is authorized to charge Deposit Account No. 18-1750. A duplicate of this transmittal is attached.

Respectfully submitted,

Title: 1:N MEM SWITCH MODULE

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

PETITION PER 37 CFR §1.47

FILING WHEN AN INVENTOR REFUSES TO SIGN OR CANNOT BE REACHED

Sir:

This petition is filed in accordance with 37 CFR §1.47, in response to a Notice to File Missing Parts dated February 22, 2004. A copy of the Notice is enclosed.

The invention described in the application identified above has five co-inventors. We attempted to secure the signatures of all five inventors on a Declaration prior to filing the application on September 30, 2003. Only three of the inventors signed prior to the filing date, and the resulting partially-executed Declaration was filed with the application. A copy of that Declaration is enclosed.

The Notice of Missing Parts correctly notes that the signatures of inventors Gabriel M. Rebeiz and Guan-Leng Tan are missing from the Declaration filed on September 30, 2003. Diligent efforts have been made to secure these signatures, both before and after the filing date. These efforts have been unsuccessful; inventors Rebeiz and Tan are not responding to our requests for their signatures.

The pertinent facts are as shown below. Copies of each attempt to contact inventors Rebeiz and Tan are enclosed.

1. E-mails of September 12, 2003:

Inventor Gabriel Rebeiz was first contacted on September 12, 2003, via e-mail. In that message, I informed him of the impending application filing, and asked for his address and citizenship data for use on the Declaration. He promptly replied and supplied the requested data. I responded by sending him a

02/27/2004 WAFAM1 00000050 181750 10676875

01 FC:1460 130.00 DA

Declaration which included his address and citizenship data, along with a copy of the application, and asked him to sign and return the Declaration to me.

2. E-mail of September 21, 2003:

Mr. Rebeiz did not sign and return the Declaration I sent him. Instead, he asserted that his colleague Guan-Leng Tan should be named as a co-inventor. This was discussed, and it was agreed that Guan-Leng Tan should be named. Not knowing how to contact Mr. Tan, I sent Mr. Rebeiz an e-mail on September 21 asking for Mr. Tan's contact information.

3. E-mail of September 24, 2003:

The September 21 e-mail elicited no response. I sent Mr. Rebeiz another e-mail on September 25, with a newly-prepared Declaration which included Mr. Tan's name.

4. E-mail of September 25, 2003:

Mr. Rebeiz replied and indicated that he would attend to the Declaration the next day. However, nothing was received, so I sent a reminder e-mail.

The application had to be filed by September 30, 2003, and was thus filed without the signatures of Rebeiz and Tan.

The Notice to File Missing Parts arrived in late December, and my attempts to secure the signatures of Rebeiz and Tan resumed.

5. E-mail of December 29, 2003:

A new Declaration referencing the application number and filing date of the application was prepared, and e-mailed to Mr. Rebeiz on December 29, 2003. There was no acknowledgement or reply of any sort.

6. Letter of January 12, 2004.

With Mr. Rebeiz refusing to acknowledge my e-mails, a letter was prepared and sent to him on January 12, 2004, along with another copy of the revised Declaration. A self-addressed and stamped envelope was also enclosed for him to use for returning the Declaration. To date there has been no response.

It is clear that Mr. Rebeiz has decided not to cooperate, and continued efforts to secure his signature are likely to be futile.

With respect to Mr. Tan, we were never provided with any contact information for him. He works directly with Mr. Rebeiz, and we have necessarily relied on Mr. Rebeiz to secure Mr. Tan's signature.

The last known address for Mr. Rebeiz is:

Gabriel M. Rebeiz
2108 Brockman
Ann Arbor, MI 48104

His office contact data is as follows:

Gabriel M. Rebeiz
Professor of Electrical Engineering and Computer Science
EECS Department
1301 Beal Ave.
The University of Michigan
Ann Arbor, MI 48109-2122
Tel/Fax: (734) 647-1793/2106
email: rebeiz@umich.edu

As noted above, we have no contact information whatsoever for inventor Guan-Leng Tan.

In sum, inventor Gabriel Rebeiz refuses to sign the Declaration for the present application, and inventor Guan-Leng Tan cannot be found. We request that, in light of the above-noted facts, this Petition be granted.

Respectfully submitted,

Subject: RE: Patent application w/DeNatale, Hacker, Mihailovich

Mr. Rebeiz:

Thank you for your quick response.

Please find attached a copy of the final draft of the application, a set of formal drawings that accompany the application, and a set of formal papers. The application is attached as a password-protected Word document; I will send the password in a subsequent e-mail.

Please sign and date the Declaration document where your name is listed.

I do not know what arrangement you have with respect to assigning your rights in the invention. If you are not obligated to assign to Rockwell, please disregard the Assignment document. Otherwise, we ask that the Assignment document be signed in the presence of a notary, if at all possible. Otherwise, just sign and date the Assignment.

When signed, please return the documents to me. My contact info is below.

Please let me know if you have any questions.

Best regards,

Subject: Patent application w/DeNatale, Hacker, Mihailovich

Mr. Rebeiz:

I have prepared a patent application based on an invention disclosure I received from the Rockwell Science Center. The application is directed to a 1:N MEMS Switch Module. The co-inventors are yourself, Jeff DeNatale, Jon Hacker, and Rob Mihailovich.

Working with Jeff DeNatale as my primary contact, the application is completed and ready to file.

All I need to file it are the home addresses and citizenships for each of the inventors, so that I can prepare the formal papers that are filed with the application. I have acquired this information for each of the other inventors. Could you please respond to this e-mail with your home address and citizenship?

Once I have your information, I will prepare a set of formal papers for the inventors to sign. I will send you a set for your signature, along with a copy of the application for your review.

I appreciate your cooperation. Please let me know if you have any questions.

Best regards,

Steve Patrick

Cc: 'Jay Deinken '
Subject: patent application

Mr. Rebeiz:

In light of everyone's agreement on the contributions of Guan-Leng, I would like to prepare a Declaration that includes him - so that we can get the case filed. Can you provide his place of residence (home address) and citizenship for inclusion in the Declaration? DeNatale, Hacker, Mihailovich, Rebeiz and Guan-Leng will be listed as inventors.

As for the Assignment, please ignore the one I sent to you previously. This is something that obviously needs to be arranged between Rockwell and UofM.

Many thanks for your assistance.

Regards,

Steve Patrick

Cc: Jay Deinken
Subject: RE: Patent application w/DeNatale, Hacker, Mihailovich

Mr. Rebeiz:

We are planning to file the patent application within the next few days. As I noted previously, all are in agreement that Guan-Leng Tan is a co-inventor. As such, I have revised the Declaration to name Mr. Tan; that revised Declaration is attached. You will note that Mr. Tan's place of residence and citizenship are not indicated, as I do not have this information. I request that you add this information, either by typing it onto the Declaration using Word, by writing the information in the designated places, or by letting me know what the information is and I will make a new revision and send it back to you.

Then, if you and he would sign the Declaration and fax and mail it back to me using the contact info shown below, I would appreciate it.

As for the Assignment, I leave this to be worked out between the entities. But this issue is entirely separate from that of the Declaration, which simply identifies the inventors.

Many thanks for your assistance. Please contact me if you have any questions.

Best regards,
Steve Patrick

Subject: RE: Patent application w/DeNatale, Hacker, Mihailovich

Steven;

I read the application and there are a couple of things that we need to discuss. Here is the story, and I ask that Jeff comment on it.

- 1) The work was done with support from DARPA, LM, Rockwell, virtually all under DoD funding, and I was not a paid consultant to Rockwell Scientific when this was done.
- 2) The invention was the results of discussions with Jeff Denatale, Jon Hacker, Rob Mihailovich, but again, I was representing UoM. Actually, if I remember correctly, the actual thought came when I was meeting Jeff at Lockheed Martin in Newtown Pennsylvania.
- 3) This work has been published since quite a long time, so I do not know how you can apply for a patent, BUT, if you think that you can, then good for you.

HOWEVER,

- 1) UoM (University of Michigan) will want to claim its right to the design since I did it under DoD funds and UoM time (I was not a consultant to Rockwell). This is important since our Patent office would want to talk to you.

Re: 1:M MEM SWITCH MODULE
Docket No. 00SC137US8

Dear Mr. Rebeiz:

You may recall a series of e-mails that were exchanged in September in connection with a 1:N MEMS Switch Module invention, for which you and Guan-Leng Tan are named as co-inventors along with Jeff DeNatale, Jon Hacker, and Rob Mihailovich.

I had prepared and sent you a Declaration for your and Mr. Tan's signature, but it was never returned to us. As such, the application was filed without your signatures.

We have received from the Patent Office a "Notice of Missing Parts", that requests the submission of a Declaration signed by yourself and Mr. Tan. I have prepared a new copy of the Declaration, which references the application's filing date and application number per Patent Office rules; the Declaration is enclosed.

You will note that the information for Mr. Tan is incomplete. I have been unable to learn his home address or his citizenship. I ask that you fill in the missing information before signing, or provide me with the missing info and I will generate a revised version of the Declaration.

When signed, please mail the Declaration back to me at the address shown above. Please use the self-addressed stamped envelope I have enclosed for your convenience.

Please let me know if you have any questions, or if there is anything I can do to help expedite this matter.

Thank you.

Very truly yours,

Steve Patrick

Enclosure

DECLARATION AND POWER OF ATTORNEY

As a below named inventor, I hereby declare that:

My address, residence, and citizenship are as stated below next to my name.

I believe I am an original, first, and joint inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled 1:N MEM SWITCH MODULE, the specification of which was previously filed, receiving a filing date of 9/30/03 and an application number of 10/676,875.

I have reviewed and understand the contents of the above identified specification, including the claims.

I acknowledge my duty to disclose all information known to me to be material to patentability as defined in 37 CFR § 1.56.

I hereby appoint the following attorneys to prosecute this application and to transact all business in the U.S. Patent and Trademark Office connected therewith: all practitioners associated with Customer Number 23935; and J.J. Deinken, Reg. No. 28,406.

Address all communications to Steven C. Patrick at:

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

*Filing Date Granted***Items Required To Avoid Abandonment:**

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The signature of the following inventor(s) is missing from the oath or declaration:
Gabriel M. Rebeiz, Guan-Leng Tan
- To avoid abandonment, a late filing fee or oath or declaration surcharge as set forth in 37 CFR 1.16(e) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.

SUMMARY OF FEES DUE:

Total additional fee(s) required for this application is **\$130** for a Large Entity

- **\$130** Late oath or declaration Surcharge.

Items Required To Avoid Processing Delays:

The item(s) indicated below are also required and should be submitted with any reply to this notice to avoid further processing delays.

- A new oath or declaration, identifying this application number is required. The oath or declaration does not comply with 37 CFR 1.63 in that it:
- does not identify the citizenship of each inventor.

Replies should be mailed to: Mail Stop Missing Parts
